

OMA OFFSHORE SERVICES LTD

A fully indigenous Ghanaian company intending to supply installation and production support services to the Oil and Gas industry in Ghana.

As a proudly Ghanaian offshore services provider we aim to challenge both the established and more recent players in the market, to become the first choice for companies seeking offshore support services in Ghana.

Our ongoing investment in our people and the local social environment in which we work sets us apart from our competition. Complying with all local content regulations we are passionate that the young Ghanaians we invest in, represent the future of our country.

Our international connections, in-depth knowledge of the region and associates across West Africa mean we are perfectly placed to offer a first-class service for the Oil & Gas sector including high quality installation and production support services.

Recognising the increasing sophistication of needs of the Oil & Gas market, OMA Offshore Services Ltd will ensure that high customer service standards are set at internationally recognised levels at all times. Financial investments as well as operational software are will support our teams in Accra, Tema and Takoradi.

KEY VALUES

Safety. Personal safety and employee health are our greatest responsibilities together with the protection of our environment.

Quality. The highly specialised competencies of our network partners ensure that high quality services are maintained at all times. We always aim to meet the customers' unique technical standards.

Proactivity & Flexibility. We are prescient on behalf of our customers. Time is a key factor in the offshore industry, and we take pride in delivering our services on time and in offering flexible solutions.

Timeliness and good relations. Through close working relationships we secure the best value for our customers.

Professional Project Management. Our competitive advantage is based on continually improving our processes and finding innovative solutions for the challenges and needs of our customers.
